

Build A Website Workshop

Co-Hosted By: **WIC & ACM**

Spartan Hackers, Michigan State University's hacker club, will be holding their first event of the semester. The workshop has two tiers of experience: people who are completely new to web development will work on HTML, CSS, and beginning Javascript while more experienced web developers will be learning how to get started with Ruby on Rails. Pizza, of course, will be provided

2400 Engineering Building
Thursday, September 25th
7:00 PM - 9:00 PM
